

CURRENT REPORT 6/2021

April 13, 2021

Obtaining a building permit for Selvita Research Centre

The Management Board of Selvita S.A. with its registered office in Krakow ("Company") with reference to the information published in the current report No. 30/2020 as of August 31, 2020, the current report No. 38/2020 as of December 16, 2020 and the current report No. 40/2020 as of December 21, 2020 hereby announces that on April 12, 2021 the Company received information on issuance by the President of the City of Krakow of an administrative decision on the approval of the architectural and construction design and land development plan, granting the Company a permit to build Selvita Research Centre. The new Centre will be located in Krakow at Podole Street, near the current headquarters of the Company.

The building permit in question will become final, provided no appeal has been submitted, after fourteen days from the date of its delivery to the parties. Once the building permit becomes final and after conclusion of the contract with the General Contractor, the Company plans to commence the investment.

The planned construction of the Selvita Research Centre remains of fundamental importance for the implementation of the Selvita Group Development Strategy for 2020-2023 published in the current report No. 10/2020 as of April 29, 2020. According to the Strategy, the Laboratory Services Center will be one of the key market advantages and drivers for further development of the Company.

Completion of the construction of the Selvita Research Centre and laboratories is expected at the turn of 2022/23.

Legal basis: Art. 17 par. 1 of MAR
